# Mitcham to Syndal Water Mains Renewal

**For almost 100 years, water from Mitcham Reservoir has supplied water to our homes and businesses.**

The M22 and M46 water mains are between 80 and 100 years old and reaching the end of their service life. Our water network depends on these mains to transport and distribute water between the Olinda and Mitcham Reservoirs. To ensure we continue to supply our customers and the wider community with a safe and reliable water supply, we are replacing corroded sections of water mains in Mitcham.

## **REMINDER - Mitcham Road closure**

The project team will be closing Mitcham Road for pipelaying works from **Wednesday 1 March** until **Wednesday 8 March 2023 (inclusive)**. During construction, Mitcham Road will be closed to all traffic in both directions with detour routes in place while works are underway. Local access for vehicles will be maintained either side of the closure so that residents are able to access their homes.

## Changed traffic conditions on Mitcham Road – March and April 2023

Following the full closure of Mitcham Road from **Wednesday 1 March to Wednesday 8 March 2023**, there will be changed traffic conditions on Mitcham Road throughout March and April 2023 as we connect the new pipes to the existing water network.

Changed traffic conditions will include a reduction to one lane in each direction for approximately 200 metres between Lucknow Street and Windouran Drive.

A second full closure of Mitcham Road is planned from **Monday 17 April to Sunday 23 April 2023**. The community will be reminded closer to the time so that you are able plan your journey.
